

India's Top Growing firm in Aqua Culture with wide range of products, We are supplying our top most product as well best knowledge which is help to farmer for better production. Our most of products are manufacturer under top researcher guideline and support.

Water Quality Stabilizer

ZEO - PROBIOTICS

- **Composition:** Zeo-Jala is an imported specialized aqua grade zeolite in a concentrated balls fortified with minerals
- **Benefits: In Pond:**
 - Adsorbs toxic gases like Carbon monoxide etc. from pond water by its unique molecular pore structures.
 - Neutralizes the adsorbed toxic Ammonia by Ion Exchanging the free Ammonium.
 - Adsorbs suspended solids and other contaminants and makes the water more clean.
 - Controls bad / noxious odors from pond water by neutralizing the noxious Ammonia.
 - Helps to improve dissolved oxygen and phytoplankton levels.
 - Makes the animals fresh by relieving stress caused due to toxic gases and other pollutants.
 - Initiate to increase the fertility of pond bottom.
 - Controls the pH, ammonia etc. in normal range.
 - Prevent the chance of disease out break and infection.
- **Helps to improve growth, Health & Immunity. In Feed:**
 - • Minerals helps for better health, strength & growth.
 - • Zeolite activates the gut for better nutrients absorption.
- **Available in Both Granules and Powder form (Granular Size : 2-4mm / 4-6mm / 8-10mm)**
- **Packing : 25kg HDPE Bag or Customize available as per requirements.**
